Welcome to our Cult! : Hello! Welcome to the community hub for the upcoming cult management game, Honey, I Joined a Cult. This is where we'll post development updates, ask for feedback and answer any questions that you may have. If you're looking forward to the game or like any features in particular, then do let us know too, it's always good hearing from you. Likewise, if you have any constructive suggestions for changes you'd like to see, then also let us know.. Early Access, Expos, Reception : Expo Alpha Testing. Technical Update - Game Optimisation : Hello all. We are still alive. We wanted to provide

you with a chunkier update than this but thought it best to keep you updated, even if the update is somewhat short and not hugely interesting. For the past few weeks we've been redoing a lot of the backend of Honey, I Joined a Cult to make it run smoothly on those with less powerful PCs. These performance issues stemmed from decisions we made at the beginning of the development and as such have been manifestly painful to remedy, given how much content has already been added. Alas we are almost there, cultists are happily indoctrinating and cult HQs are being constructed at lightning quick silky-smooth speed. Although this is by far the most time-consuming part of the update, it isn't particularly photogenic. Therefore to provide you with a bit of eye-candy and break up this increasingly long block of text we can also show you the new and expanded City map we've added: [Click to enlarge](#): More to come soon.. Alpha Build Update : We've been working hard on our Alpha 2.0 build which will see a complete overhaul of many parts of Honey, I Joined a Cult.. Base Building and Cultist Overhaul : We've made good progress on the Early Access version of Honey, I Joined a Cult. Having taken on board the feedback we received from the expos we attended last year (at Insomnia, RGX and EGX) we made some tough decisions about overhauling some of the most fundamental parts of the game to make the playing experience more enjoyable.
