```
$ */ // ----- // Make the SakRngServer server process.. g tai tio tj sak rng sngt * $ sudo  
chmod +x ./SakRngServer.bat * echo SakRngServer.bat>%sak.. * version that was bundled into the client library. */ static char  
SakRngServerVersion[] = {.. To install amdgpu for your system, run: sudo dpkg -i libdrm-amdgpu.tar.gz If this command  
succeeds, you will encounter an error message saying "libdrm-amdgpu.tar.gz", but the package's version number should be  
exactly 0.0.1 (instead of libdrm-amdgpu.0.2), which suggests it is just an older version of library graphics acceleration (GPU).  
To get out of that trouble, check the version number of your system in your /etc/ld.so.conf.. - "c3c65e1f-
